ditches, storage reservoirs, and other recreational facilities
State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits.

9. Estimated cost of works.....\$5,000.

10. Estimated time required to construct works.....3 years

11. Remarks. Water is being comingled with water from other springs, as well as water from underground sources. This is a rather unusual situation. I sent my engineer all of the data in connection with a previous filing on this spring, he made a special trip to Ash Meadows, at which I assisted him in locating the necessary section corners etc, and he did the surveying, and I was of the opinion that he had filed the maps in your office. Also, when I purchased this property, the water from this spring was comingled with the water from other springs, and I have used all of the water to a beneficial use, every since that time.
